Please find attached the PPTOX IV program materials fyi . Susan Makris and I participated in the meeting and presented a poster. I also chaired a breakfast discussion session. I think it was one of the best scientific meeting that I attended in recent years. The focus of scientific presentations was primarily on pre-programming of disease outcomes in later life and trans-generational effects. Lots of excellent presentations on the role of early( pre-natal and post-natal )nutrition, chemical exposure, and non-chemical stressors and epigenetic mechanisms.

This information is also available online at [endocrine.org/pptox](http://endocrine.org/pptox). If you have any questions please contact me or Susan.
